Mail Delivered to Obama Supporters at Inaugural

The Center for Bio Ethical Reform's (CBR) Reproductive "Choice" Campaign was displayed at the Obama Inauguration in Washington, DC on Jan. 19-21. Hundreds of thousands of Obama supporters crammed the capitol to catch a glimpse of Obama as he was sworn in as the 44th President of the United States. However, many never bargained on CBR's images raining on the celebration. See some of the new Obama signs below:

Read the irony in this quote from the Obama inaugural speech:

“... [F]or those who seek to advance their aims by ... slaughtering innocents, we say to you now that our spirit is stronger and cannot be broken; you cannot outlast us, and we will defeat you.”

-- B.H. Obama, President of the United States, Inaugural Address, January 20, 2009

Tragically, the innocents Obama was referring to were not the unborn. Please help us expose Obama's pro-abortion agenda to the nation by supporting CBR Midwest financially. We still need to raise \$1900 to pay for the new truck billboard signs.

Paul Troiani, CBR Midwest's Director of Logistics stated "that CBR reached more African-Americans in 3 hours than most of the pro life movement has in 36 years." That may be a bit of hyperbole but it was a great opportunity for CBR to expose Obama's abortion advocacy to the nation. Sadly, many Americans traded "wanting to be part of history" for wanting to be for justice for the unborn. Others voted for him because they think he will help the economy. CBR wanted to make Obama supporters look at the price unborn children will pay for our supposed prosperity. And we succeeded! Thank you.

The new truck signs were the only dose of reality at an event where many have been blinded by Obama's popularity.

GAP at March for Life

The CBR Midwest's Genocide Awareness Project was displayed at the annual March for Life in Washington, DC on Jan. 22. Some may wonder why CBR preaches to choir during this pro-life rally.

Believe it or not, we go because many of the young people at the march have never seen abortion. We recently had a chaperone write to tell us that on the bus he supervised driving to the March, the kids were raucous and disrespectful. He said on the return trip, he said these same kids were so subdued he could have heard a pin drop. He attributed the difference in attitude to our pictures.

Help Us Save More Lives

Please continue to support our ministry. Times may be tough, but they are likely to get tougher for the babies and their parents unless people step up to the plate to defend them. Your monthly support helps us pay our monthly bills. With your help we can continue to see the type of testimonies below. How much is a life worth to you?

AbortionNO.org Has Huge Impact

I was a woman who supported abortion, I am ten weeks pregnant. In the beginning I thought about getting an abortion but after seeing this [AbortionNO.org] I have changed my mind and I am now very much against abortion. To think that I was about to end a life that is so precious to me is so selfish and unforgiving.

I'm a 13 year old and when I'm at school I hear that there's nothing wrong with it [abortion] but when I saw the video on AbortionNO.org I couldn't stop crying and I want to do something to stop it! – 13 year old from Quincy, Illinois

I am 13 weeks pregnant, I thought about having an abortion, and even called the clinic...but in the end I realized that financially and emotionally I will be able to take care of this child like I do my 6 year old. After seeing your site [AbortionNO.org], I KNOW I made the right choice by keeping my baby! – 27 year old female

Regretfully I have had an abortion. Planned Parenthood swore to me that my 9 week baby was only cells (no bones, nothing). Looking at the pictures of what a 9 week old [aborted] baby REALLY looks like has deeply affected me and the decision I made. I wish I had seen this site sooner. – 20 year old female from Cincinnati, Ohio
